

City of...

Bellevue

The City of Bellevue is a great place to live, with nearly 100 parks and vibrant neighborhoods. The government continues to make it easier and safer to get around the city, whether you're in a car, riding a bike or walking. Citizens help make the city a good home by participating in homeowners associations and choosing neighborhood improvement projects worthy of government funding. The Neighborhood Outreach team works closely with residents to connect them with programs, services and resources.
