# Eatonville

Incorporated in 1909, the Town of Eatonville is a rural community of approximately 2,330 residents. Eatonville is located in Pierce County roughly 59 miles south of Seattle and 31 miles southeast of Tacoma. Nestled among the foothills of beautiful Mt. Rainier, Eatonville enjoys a small town charm and distinctive natural beauty.

Lands surrounding Eatonville are heavily wooded and are federally, state, and privately held. Forestry has traditionally provided the main economic base for Eatonville. With declines in the timber industry, Eatonville is transitioning into a bedroom community for Puget Sound cities and gateway community for surrounding recreational opportunities.
