Edgewood

To the north lie the beckoning waters of Puget Sound, where beaches are begging to be explored and leaping salmon, barking seals, and long-legged blue heron are waiting to come into focus. To the south stand the towering slopes of Mount Rainier, home to year-round snow, deep blue glaciers, and elusive black bears.

Edgewood was officially incorporated on February 28, 1996. The elevation is 354 feet. Edgewood children attend the Puyallup, Fife, or the Sumner School District depending where they live.
