

City of...

Enumclaw

The City of Enumclaw is located in south-central King County on a plateau nestled against the Cascade Foothills. This geographical position provides the community with a mild Northwest climate, access to major transportation and urban centers via three state routes, and proximity to recreational, social, and economic opportunities. The Enumclaw plateau area is home to approximately 19,000 residents.

Enumclaw enjoys a lively economy supported by a growing job base and bolstered by a downtown revitalization program. Enumclaw residents take pride in its friendly neighborhoods, quality schools, courteous businesses, and community involvement. These qualities make Enumclaw a modern example of the small-town values and lifestyle romanticized throughout our American heritage.
