# Orting

Orting is a small city located approximately 30 miles from Mount Rainier. The first recorded claims for the land in Orting was made in the early 1850's, however, the city was officially incorporated in 1889. The town sits in a fertile valley between two major rivers, the Carbon and Puyallup Rivers, and it is built entirely on several layers of lahar deposits.

Every year, Orting is the fourth stop in the annual Daffodil Festival Parade. The parade has gone through downtown Orting since 1934.
