Pacific

The City of Pacific is a small city located in South King County, 30 miles south of Seattle and 15 miles east of Tacoma. Incorporated in 1909, Pacific has grown from a small agricultural community into a regional partner in transportation, economic development and quality government. Pacific offers available land, progressive government, and is proactively working on economic development and building a strong community. With easy access to transportation, an educated workforce, and developing infrastructure, Pacific is a prime location to move or build a business. With our strong sense of community, quality schools, and recreational opportunities, Pacific is a great place to live and do business!
